

FPRN News

November 17, 2015

Network Upgrades

The FPRN has not undergone any major software updates since our last Newsletter.

The first phase of the Height Modernization Project was implemented across the FPRN. Any comments about changes in vertical accuracy will be received with extreme gratitude.

THE FPRN WILL BE IMPLEMENTING A CUSTOM GEOID FILE BEGINNING IN 2016.
The file will be named "FPRN2016" and will be available for download on the FPRN Website.

Network Outages

Since the last Newsletter the Network has been running well, with a very few exceptions.

We will be scheduling a weekly reboot of the FPRN to occur every Sunday morning.

New Stations

We are pleased to announce the addition of a new station to the network.

FLFB – Fernandina Beach

This site has been operational since the first week in November.

Upcoming Stations

Agreements are finalized to place stations at the following locations:

FLBR – Bronson

FLSI – Sanibel Island

FLBY – Bonifay

FLBP – Balm Picnic (Southeast Hillsborough)

FLCK – Cedar Key

Dismantled Stations

JXVL – Jacksonville

BNFY- Bonifay

IRC2 – Gifford

IRC3 - Fellsmere

These sites are longer be available on the FPRN.
